Our Highland door and Highland Horizontal door are available in Echo Wood, a reconstituted wood product.

Echo Wood mimics the look of White Oak, Maple, Wenge and Cherry wood. The look of Shale rock is also available in Echo Wood.

Echo Wood wood fiber comes from forests that are well managed, plantation-grown and Forest Stewardship Council Certified. Echo Wood is a beautiful and practical alternative to achieving the look of the most expensive and rare woods, preserving them for future generations. Echo Wood is free of defects and consistent in color and grain time and time again.

Bamboo

Bamboo is a unique look for your kitchen and bath. Bamboo is not a tree, it's a grass. Like your lawn, as soon as Bamboo is cut, it starts to grow back. Harvesting bamboo to make cabinets does not injure the surrounding environment, and bamboo's extensive root system holds soil in place. It's a great look that's green!

The Highland door and Highland Horizontal door (shown at left) are available in Bamboo.

Thermofoil is a man-made material that designers love to use for furniture and cabinetry. Thermofoil is also known as 3D laminate. It wraps around a sturdy substrate of engineered wood and provides instant good looks with no seams. Thermofoil doors are easy to clean, oh so durable and offer subtle texture for today's kitchen and bath designs.

Beautiful cabinetry
that is easy to care for.
**Thermofoil is the
easy choice.**

Why choose full access, frameless cabinetry?

As you page through this *Selection Guide*, you'll see that we offer all the door styles, material and cabinet colors you need to create a beautiful kitchen and bath that reflects your style and personality.

Did you also know, when you choose Urban Effects Cabinetry, you are choosing a cabinet style (called full access or frameless) that has more usable space? Compared to framed cabinetry, frameless cabinetry has 15% more storage space.

In addition, compared to framed cabinetry, frameless cabinetry offers:

- Wider drawers, giving you more room for your kitchen gadgets and beauty products.
- Easier access, because on wall cabinets that are smaller than 36" wide, no center support is necessary.
- Easier cleaning, because the cabinets have fewer inside corners.

Our Warranty

Urban Effects Cabinetry is covered by a 10 year limited warranty. For all the details, visit urbaneffectscabinetry.com or talk to your Urban Effects Cabinetry dealer.

We create custom colors!

Did you find a "have-to-have-it" color? Let us know! In addition to our large selection of standard colors, we can create wood cabinetry in a custom color.

More than 10,000 colors are available in our custom library. And if it's not in the library, we are confident we can take your desired hue and create cabinetry in that color. All we need is a paint swatch, paint name or paint code.

Talk to your Urban Effects Cabinetry dealer about cabinetry in a custom color. We want your kitchen and bath to be exactly what you want.

Custom opaque: Maple, HDF, Oak, Rift Oak

Custom stains: All wood species

When you want a smooth, consistent painted look in your home, consider Urban Effects Cabinetry's OPAQUE FINISHES.

High-density fiberboard (HDF) is an engineered wood product. It is made by breaking down softwood into wood fibers, and combining them with wax and a resin binder. By applying high temperature and pressure, the material is easily shaped into various door styles with pleasing profiles. It is an excellent choice when you want the look of painted cabinets in your home. Opaque finishes will be exceptionally consistent and smooth on HDF material.

Muirfield door style in HDF finished in Agreeable Grey

Brush Stroke

opaque with
something extra

Collingwood door style in HDF finished in Silver Fox Brush Stroke

We create our Brush Stroke finish by hand!

First, choose a base color from the Brush Stroke palette. We apply the base color, glaze the color, then handcraft a subtle pattern that mimics wood graining. Each cabinet in your design will have slight variation. This variation is what makes this finish so unique, and your kitchen anything but cookie cutter. Rest assured, this is a durable and long lasting color that is finished with an industrial topcoat.

At Urban Effects Cabinetry, we craft one kitchen at a time, using the latest CNC technology, in a facility that utilizes energy efficient heating and lighting.

In our 130,000 square foot plant, our manufacturing process keeps your kitchen together from order entry, through finishing and shipping, ensuring accurate quality and on time delivery.

Producing full access cabinets since 2009, we have more than doubled our plant’s footprint, while offering the newest trends in color and style. And because we use the latest in European machinery, we respond quickly to changing trends and custom requests.

Interiors

WHITE

This is our standard interior. Easy to clean melamine in White provides a bright and clean backdrop for the contents of your cabinets.

NATURAL

This upgrade provides all the benefits of easy to clean melamine with a warmer look.

PLYWOOD

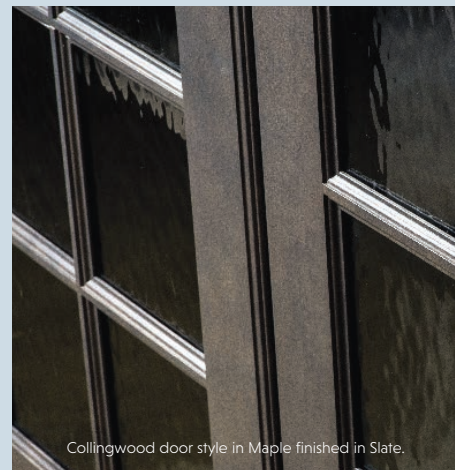

This upgrade outfits your cabinets with beautifully finished plywood interiors. Keep in mind that plywood interiors are only available with double wall steel drawers or wood drawer boxes. Your Urban Effects Cabinetry dealer will have the details.

MATCHING

This upgrade is top of the line. If you have glass front doors or open shelves, you will want the interiors to match the cabinet exteriors. Matching Interiors is available for all stains, all opaques and select melamine colors. Your Urban Effects Cabinetry dealer will have the details.

Door style options

Collingwood door style in Maple finished in Slate.

MULLIONS

If a door can receive mullions, it will have an "M" under the door picture, in "Available options." Please note, glass inserts are not available to order through Urban Effects Cabinetry.

Urban Effects Cabinetry is CARB II compliant and ESP certified.
Kitchen Cabinet Manufacturers Association
Environmental Stewardship Program
All products impact the environment.
For ESP program criteria, visit kcma.org.

Urban Effects Cabinetry is a certified brand in the Kitchen Cabinet Manufacturers Association (KCMA) Environmental Stewardship Program. The program recognizes companies that demonstrate an ongoing commitment to sustainability including the use of environmentally responsible materials in cabinet products and minimized environmental impacts realized through recycling wastes and using low emission coatings. By achieving this certification, Urban Effects Cabinetry is going beyond minimum requirements and demonstrates leadership in growing a sustainable company.

MADE IN CANADA

Urban Effects Cabinetry is a Norcraft Companies brand.
Norcraft Companies is part of the MasterBrand Cabinets Family.

Accuracy of all reprinted color is subject to printing limitations. Please bear in mind that variation is inherent in wood, and actual finishes may differ substantially from what you see here.

As we continually seek to improve materials and production methods, Urban Effects Cabinetry reserves the right to change specifications, offerings or designs without notice.
